Projects

WhatsApp Clone | Minor Project | Ongoing

Developed a WhatsApp clone application using Django in Ubuntu

I am Aarzav Jain, a dedicated individual currently pursuing a Bachelor of Computer Applications (BCA) degree. With a strong academic background, I have developed proficient skills in programming languages such as C++ and Python. In addition to my programming expertise, I have honed my abilities in web development. My passion for technology and commitment to learning make me a promising candidate with a well-rounded skill set in the field of computer science.
